ASSESSMENT + RESPONSE DESIGN

Assessment and workable response

Agree what needs to change and how to put it into practice.

I work with the people involved to understand the constraints and develop a response they can put into practice, including the decisions needed to make it workable.

Assessment

Implementation
Available separately

WHAT YOU RECEIVE

01 **An assessment to build on**

Evidence of what is holding delivery back, or a review of existing assessment work where it is sufficient.

02 **A workable response**

Proposed changes developed with the people who will carry them out and those who must authorise them.

03 **An implementation path**

Responsibilities, dependencies and outstanding decisions, followed by a handover to your team.

Use this when your team needs a response it can take forward.

WORKING TOGETHER

Scope agreed together

The fee and timetable reflect the priority and the functions involved. Sound assessment work can provide the starting point.

Ends with an agreed response and implementation path. Your team leads implementation; support on live work can be added.

PRIOR INSTITUTIONAL EXPERIENCE

100+ projects

20+ countries

I designed and led changes across this portfolio, working with teams to revise planned work and improve how delivery decisions were made.

Let's discuss your priority.
