ASSESSMENT

Delivery Readiness Review

Understand what is holding delivery back.

I work with your team to examine an agreed priority, the work required and the conditions for delivery, so you can decide what needs to change.

Assessment
Included

Response design
Available separately

Implementation
Available separately

WHAT YOU RECEIVE

01 **An evidence-based assessment**

The constraints affecting your priority, with supporting evidence and material uncertainties.

02 **A clear starting point**

Recommendations on what needs attention first and the decisions required to proceed.

03 **A findings discussion**

A shared review with the relevant people, so your team can decide how to take the work forward.

WORKING TOGETHER

Three weeks of work

A fixed fee is agreed before we start. Calendar timing depends on scope and access to records and participants.

Ends with the assessment and recommended next steps. Detailed response design and implementation can be commissioned separately.

Start with a defined priority that is not progressing as expected.

PRIOR INSTITUTIONAL EXPERIENCE

100+ projects

20+ countries

I designed and led changes across this portfolio, working with teams to revise planned work and improve how delivery decisions were made.

Let's discuss your priority.
